Presentation Skills Workshop

Impacting business by delivering powerful presentations

Some “excellent” speakers are *gifted*, but most are merely *practiced presenters*. In our experience, participants who relied *solely* on their natural ability found they did not *reach the audience* as well as participants who applied the components presented in this workshop. We help participants motivate audiences by improving *personal presence* (i.e. audience connection, confidence, the “it” factor); *technical skills* (i.e. eye contact, rate of speed, intonation); *audience impact* (i.e. how they learn and process information); and *presentation layout* (i.e. color, fonts, making it interesting). *Powerful presentations are better for business.*

Topics Offered:

- **Personal Presence**
- **Open & Close effectively**
- **Body Language**
- **Presentation Format**
- **Communication Model**
- **Behavioral Tendencies**
- **Learning & Processing Styles**
- **Handling the Audience**
- **Comfort Zone, Confidence & Nerves**
- **Power Point pointers**

This interactive program includes impromptu and prepared ***recorded presentations*** - *customized* to fit your organizational goals and designed to maximize long-term, practical application. ***We advance presenters by engaging in straight talk.***
